Pursuant to Chapters 418 and 546, Laws of Montana 1995, effective July 1, 1995, the Department of Health and Environmental Sciences (DHES) was disbanded. The functions of DHES were transferred to the new departments of Environmental Quality (DEQ) and Public Health and Human Services (DPHHS).

Subsequent to this legislative action, the rules in DHES' s Title 16 were transferred to DEQ, Title 17 or DPHHS, Title 37, or repealed. All rules from Title 16 have now been addressed by the departments and no longer exist as Title 16 rules.

In order to maintain a historical record of repealed rules from Title 16, a list of those repealed rules, by chapter, will be maintained in Title 17 and Title 37. These lists will include the rule number, catchphrase, and history note of each repealed rule, applicable to the respective department.

Following this page are lists of former Title 16 rules, by chapter, indicating whether they were repealed or transferred and to which rule number they were transferred. Because there were reserved chapters, subchapters, and rules, there are some gaps in the rule numbers in these lists.

The Administrative Rules Bureau is providing these pages as a research tool. These remaining pages of Title 16, as well as the Cross Reference Table, Repealed Rules Table, and Old-to-New and New-to-Old Tables should be kept together for your future reference. Should you have questions regarding Title 16, the ARM Bureau will be able to assist you.
